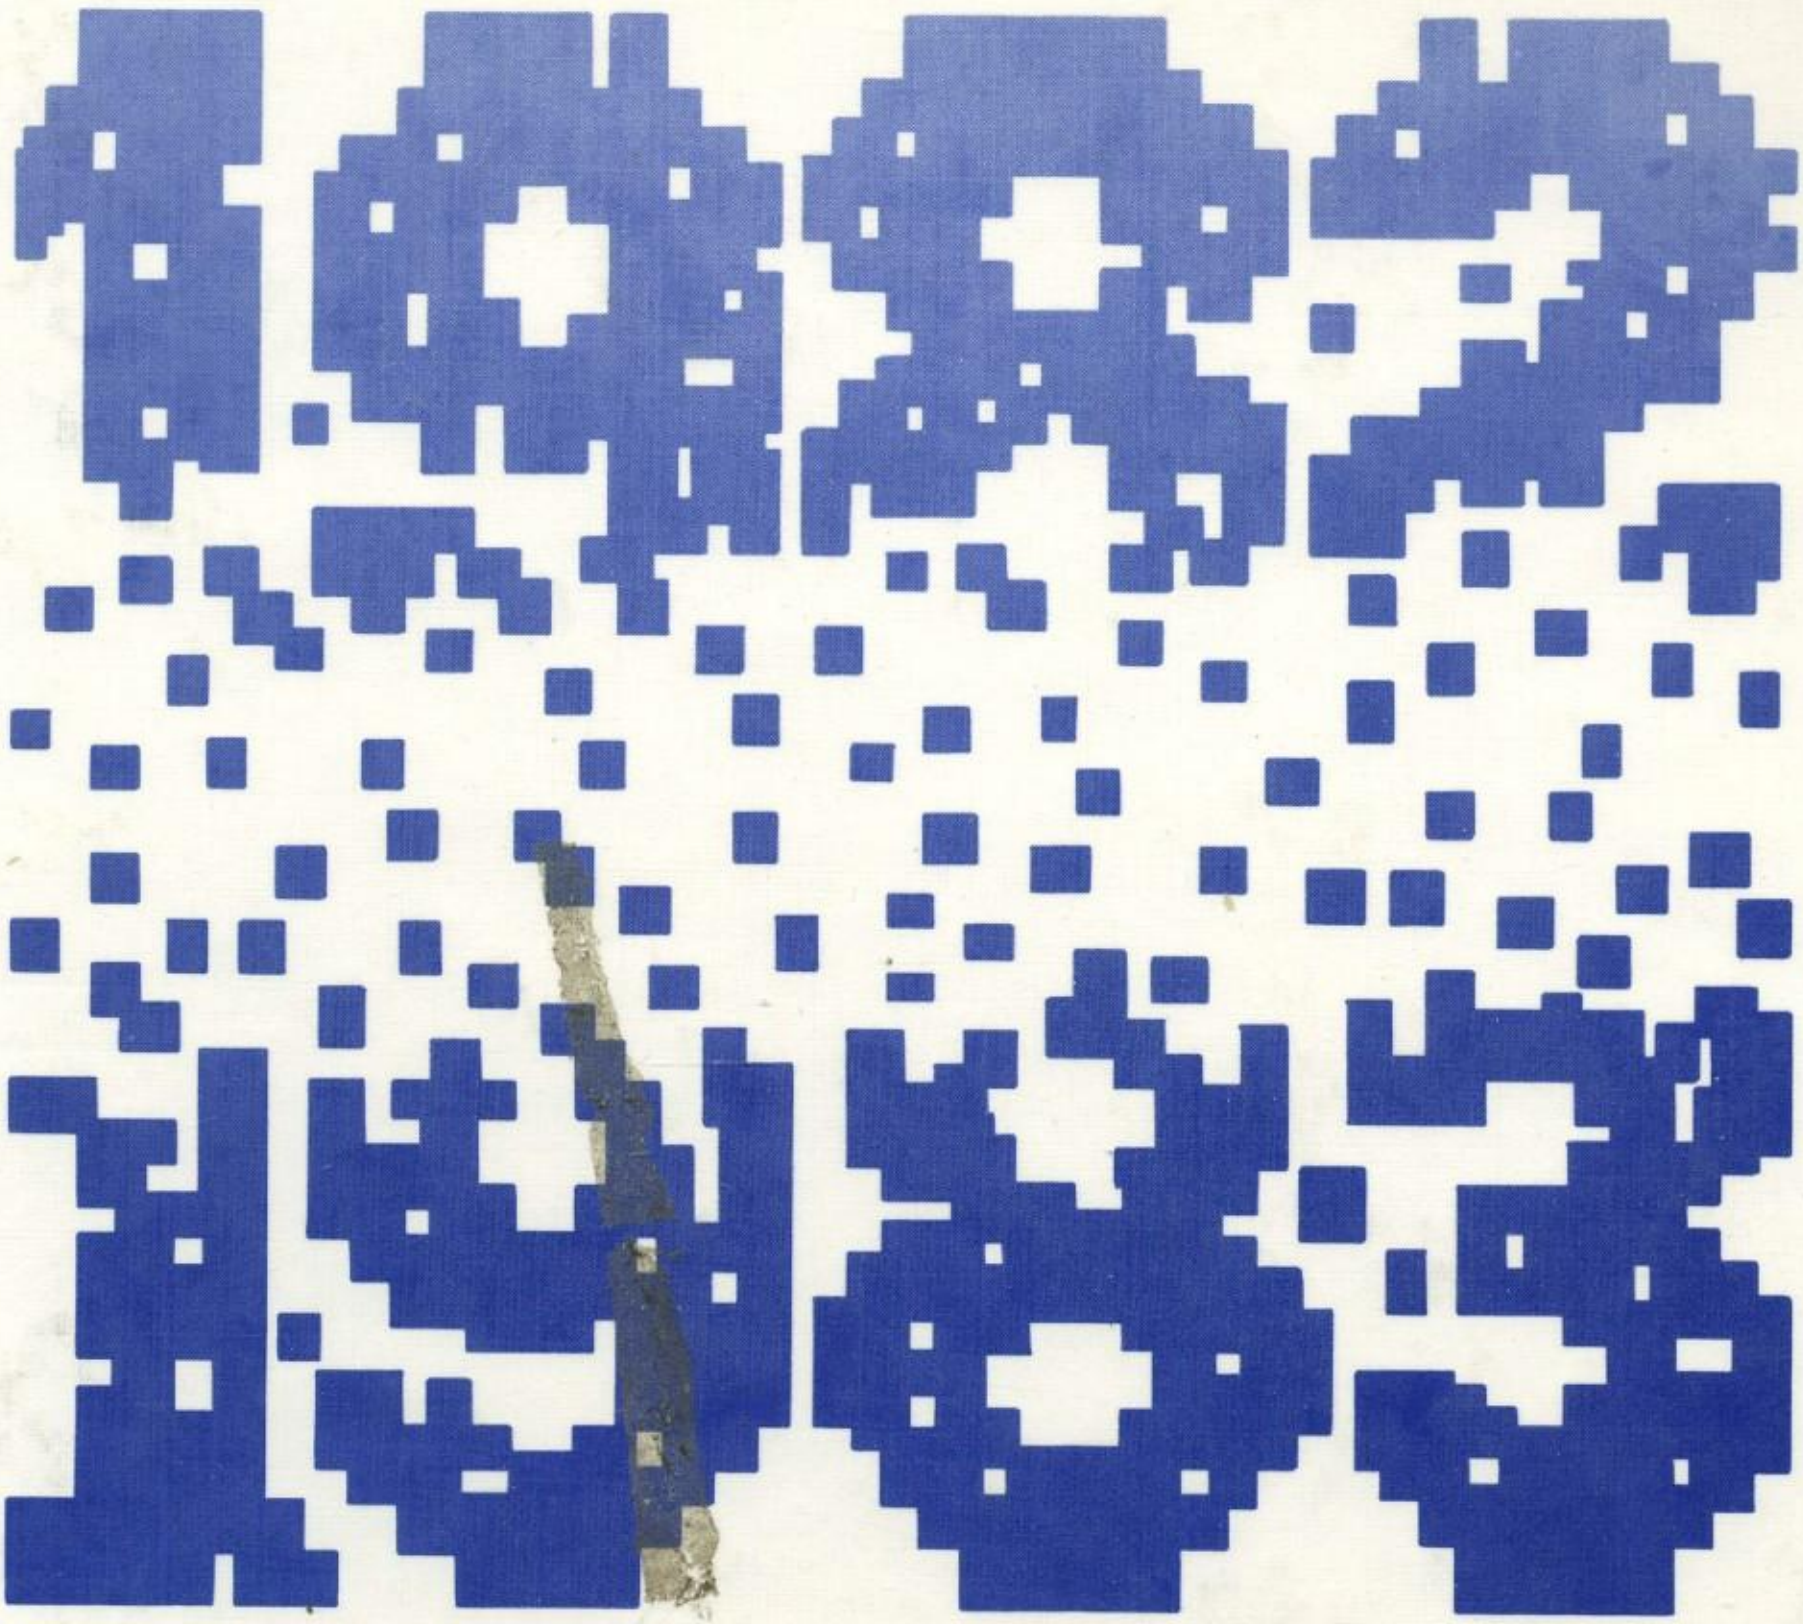
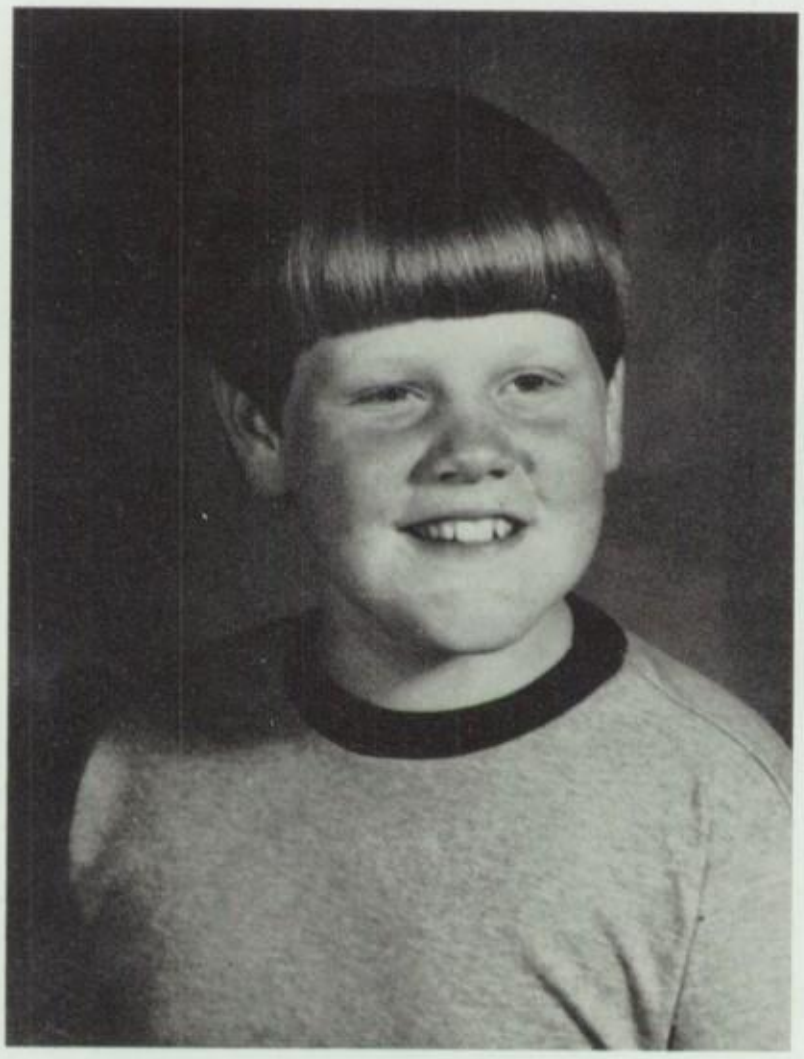
FALCON



DEDICATED IN MEMORY OF OUR FRIEND AND CLASSMATE BOBBY GORSH



Born - August 30, 1965
Died - September 17, 1976

To someone you may be forgotten-
To others a part of the past,
But to us who loved and lost you,
Your memory will always last.

Your days were always busy,
But you always took time to say "hi."
We never dreamed the day would come,
And we would have to say good-bye.

It broke our hearts to lose you,
But you didn't go alone.
For part of us went with you,
The day God called you home.

Take The World As You Find It
But Leave It Better

Monica Meyer

Beverly Montross — Teacher of Monica Meyer.

Monica Meyer, daughter of Dennis and Alana Meyer, attended Kindergarten in her home this year. Monica has neutropenia, a rare disease that leaves her susceptible to infections, especially of the mouth and respiratory system.

Neutropenia is a disorder in which the blood contains too few white cells. White cells are the body's first line of defense against infection. The disease's name comes from neutrophil, the particular kind of white cell lacking. Penia is the Greek word for poverty. Neither the cause nor the cure for neutropenia is known.

Grant Wood Area Education Agency has a Homebound Program for students who are unable to attend public school. Students are provided with up to 6 hours of teaching a week. Beverly Montross, the Kindergarten teacher, coordinated Monica's teaching to coinside with what was being taught in the Kindergarten classroom.

Mrs. Montross worked with Monica two hours a week. She made Monica feel like a part of her class and taking some of her completed papers to show her classmates. Every week she would talk about Monica's classmates with her and tried to bring a little about each of them into her world. The students exchanged Valentines and Monica helped to make and decorate heart-shaped cookies for Mrs. Montross to take to school.

May 2 of this year, when Mrs. Montross took the class to the post office to mail their Mothers' Day cards, Monica and her classmates met face to face (through a car window) for the first time. Monica had never seen a child of her own age and she was thrilled.

Monica's pediatrician says, "There's a fairly good chance Monica will outgrow this. At this point we're just protecting her from exposure to infection as much as possible and waiting to see how things go. Because of her disease, Monica has to be sheltered, but I don't think she's overly sheltered. She seems to be a contented, happy little girl. Time will tell how much we can let her out into the public school system."

A Bit of Denmark

Ejner Soby, American Foreign Student, and his host family, Mr. and Mrs. Lloyd Rank, Karl and Paul. Ejner arrived from Assentoft, Denmark, on August 18, 1982.

Ejner left his parents, Henning and Betsy Soby and two brothers, Jesper and Peter, when leaving for America.

He described his family here as very nice. I'm sure the Lloyd Rank's enjoyed having him as much as we enjoyed having him as a classmate. Ejner thought the people here were much nicer than those in Europe, who always seem to be in a hurry.
